

Superimpose (Side)

Quickly arrange your stitched 2D patterns to your 3D garment, by utilizing **Superimpose (Side)**.

- ▶ Right-Click on your unarranged pattern piece to open up a menu where the Superimpose (Side) option is.
- ▶ If the pattern piece is stitched to another that is already arranged, it will snap to that same section based on the stitch

- ▶ Using Superimpose is an alternative method to using the arrangement points.
- ▶ Very useful when layering pattern pieces
